### Mrs. Annie Petrie Funeral Held on Tuesday

Died on Wednesday, Oct. 31; Services Held in Holy Ghost Church.

The death occurred on Wednesday, Oct. 31, of Mrs. Annie Petrie, 42 years and 8 months, the funeral being held on Tuesday morning from the family residence, services being conducted by Rev. Father L. Sullivan in the Holy Ghost church. Interment was made in the Coleman Catholic cemetery.

Deceased was born in Scotland and with her parents came to Canada when only two years of age. She resided in the United States for a brief period, returning to Canada where she married Mr. Clarence Petrie in 1927 in Coleman. They resided at Corbin, B.C. for five years before returning to Coleman where she and her husband had resided up till her passing.

Surviving are her husband, two sisters residing in British Columbia and two brothers, Charles Kane, of Coleman, and Harold, serving in the Canadian navy.

### SON OF REV. JOHN L. WRIGHT NOW OFFICIALLY REPORTED KILLED IN ACTION

Pass friends of the Rev. and Mrs. John L. Wright, now of Vulcan and formerly of Bellevue, will learn with regret that they have just been notified by Ottawa that their son, Charles, RCAF, was instantly killed in action on October 20, 1945, when his plane crashed 46 miles northwest of Hanover, the entire crew being killed.

The six crew members are all buried in the village cemetery of Langwedel, in northwest Germany.

Send to the utmost.

### WELL KNOWN BLAIRMORE CITIZEN PASSES

Death claimed another of Blairmore's well known and highly respected citizens last Thursday morning in the person of Alexander Seymour May, at the age of 59 years.

Coming to Blairmore about thirty years ago, Mr. May had been in the employ of the West Canadian Collieries at the Greenhill mine, prior to which he worked for the company at Lille. In 1915 he enlisted for service in World War I. with the 192nd Battalion and went overseas, where he saw service in France. In 1918 he received his discharge and returned home.

Deceased was an uncle of Mrs. J. R. Kerr. Both Mr. and Mrs. Kerr attended the funeral on Monday.

### St. John Ambulance Assoc. Elects Officers

General meeting of the St. John Ambulance Association was held on Sunday, Nov. 4, in the council chambers. Officers elected for 1945-1946:

Hon. Presidents: R. M. Greenhaigh, A. McCulloch, J. J. McIntyre, J. Kellock, L. McDonald, and D. T. B. Brown, mine inspector, of Blairmore.

President: E. Hill. Vice-President: M. Kubica. Secretary-Treasurer: J. M. Rushton.

Executive: (McGillivray) N. Frandsen, J. Simla, F. Henriet; (International) H. Parkinson, W. Moell, G. Clarke; (town and school) Miss A. Yuill, S. B. Ryan, R. Kwamie, J. McDonald.

Instructors: E. Hill, A. McCulloch, H. Parkinson, E. A. Hill. First Aid classes to commence on Sunday, Nov. 18, at 1 p.m.

Mrs. J. Columbo and son Russell were recent Lethbridge visitors.

### Coleman Reception & Rehabilitation Committee to Sponsor Supper, Concert and Dance to Returned Men

To be Held in Community Hall on Monday Evening; Public Invited to Take Part in the Dance.

On Monday evening next in the Community Hall the first of a series of suppers, concerts and dances to be given by the Coleman Reception and Rehabilitation Committee to aid in the entertainment of the returned men and women who have served in the armed forces will be held. It is the intention of the entertainment committee to honor those already home. Those arriving home after next Monday and for possibly the next two or three months will be honored in the second of these programs.

The entertainment committee has been working exceptionally hard to

make their first venture a complete success. A sumptuous banquet is being arranged and a talented cast of entertainers lined up to take part in the concert. At the completion of the concert the whole affair will be thrown open to the Coleman public to come in and enjoy themselves at a dance.

Admission to the supper and concert is by invitation card only.

The town council donated \$250 to the Coleman Reception and Rehabilitation Committee to aid in the entertainment. At the week end the Coleman branch of the Canadian Legion matched the council dollar for dollar and also donated \$250.

### L/CPL. JOE PANEK FAILED TO ARRIVE HOME

L/Cpl. J. Panek, reported to have arrived on the Ile de France with Oliver Barringham and Ugo De-Cecco, failed to arrive home as reported and as far as his mother knows he is still in Europe.

This is the second wrong report given Coleman parents regarding their sons. The first was given on Walter Cieslak. His parents travelled to Calgary to meet him only to be disappointed and later learned he was still in Holland.

The names are sent to Coleman by the Canadian Legion in Calgary. They are received by the local Legion executive, who in turn relay them to the families here. In the case of Panek even the daily papers carried his name, so the error evidently occurred in England.

### SINGLE LICENSE PLATE WILL BE USED NEXT YEAR

Single license plates will be displayed on Alberta motor cars in the new license period opening next April 1, according to information received by the Alberta Motor Association from the provincial secretary's department.

The single plate was restored during the past year, after the sticker system was tried out for a year as a war measure.

Officials say that the new 1946-47 plates have been ordered and they will be available to applicants in good time before April 1.

When the old two-plate system will be restored is a question, though there are some suggestions that it will come into effect in the 1947-48 period, as more steel will be available for civilian needs.

Your Canada needs millions, what is your share? Buy Victory Bonds.

### Mrs. George Burtnik Proves Herself A Go-Getter

Stirs up Agitation in England to Change Regulations to Allow More Shipping Accommodation for Canadian Servicemen's Wives.

George Burtnik, recently discharged soldier, is in receipt of a newspaper, Brighton and Hove Gazette, from his English bride, which carries her picture and a story telling of her fight to have more shipping accommodation allotted brides of Canadian servicemen in order that they may join their husbands in Canada.

Mrs. Burtnik, along with others, had been promised passage to Canada earlier in the year. This, however, was cancelled at the close of hostilities and the women are now being shipped across in very small numbers. Some had sold much of their belongings preparatory to leaving for Canada only to find that they were now more or less stranded. Mrs. Burtnik advertised in a newspaper and secured names of 250 brides on a petition. She also has received the support of a British MP who promised to take the matter up with Mackenzie King who was visiting in England a few weeks ago.

Although applicants for employment are now permitted to use a box number or any other address they wish in their newspaper advertisements, the regulations regarding advertising by employers are still in effect.

Advertising by employers seeking workers is encouraged. All that is required is that before publishing an advertisement the employer file his order with the employment office and in the advertisement show the local office order number and indicate that applicants must apply through the employment office named. In regard to advertisements inserted by workers seeking employment, it is no longer necessary for interested employers to direct their enquiries to one of the local offices. All that is required is that the advertiser obtain a permit before actually entering employment.

### Snow And Severe Cold Hold Alberta In Winter's Grip

Mercury Went to Six Below on Wednesday Morning; Heavy Snowfall Slows up Traffic.

On Saturday evening a terrific wind blew through the Pass, hitting a high velocity as it raced past Pincher Creek and on to Macleod. In Coleman a few fences and trees were blown over. In one instance a pane of glass was taken from a window and hurled into the adjoining yard where it smashed into a thousand and one pieces.

Saturday's high wind was followed on Sunday evening with a snowfall which lasted throughout the night and well into Monday. On Wednesday morning snow again fell. The snow is now so heavy that cars are having difficulty operating and only a few are to be seen on main street.

A cold snap accompanied the snow. On Tuesday morning the mercury dipped to four below and on Wednesday morning it touched six below, the coldest of the winter.

The cold weather has caused the curlers to start flooding at the arena and if the present cold spell continues for a few more days it is very probable that curling will get its earliest start locally in a great many years.

Monday saw a number of passenger cars being hauled around the streets by wreckers in an effort to get them started.

### UNEMPLOYMENT INSURANCE COMMISSION

The total balance in the fund of the Unemployment Insurance Commission as at September 30, 1945, amounted to \$304,961,438.16. This amount represents an increase of \$48,884,751.36 since January 31.

The total revenue received during September was \$6,268,078.74, and the amount of benefit payments made was \$881,737.39. This compares with \$6,552,048.65 and \$545,604.35, respectively, during January.

In the prairie region during September there were 5,296 claims for unemployment insurance benefit, 3,017 male and 2,279 female. This compares with 4,215 male and 1,851 female claims during January this year.

### Rev. W. E. Brown Remembrance Day Service Speaker

J. J. McIntyre Will be Chairman; Returned Veterans to Parade in Uniform; Parade to be Led by Pipe Major J. Moore.

Plans have been completed by the Canadian Legion to hold a Remembrance Day service in the Community hall, Sunday, Nov. 11, at 10 a.m. A cordial invitation is extended to the public to attend.

Rev. W. E. Brown will deliver the principal address and Mr. J. J. McIntyre will be chairman. Others of the local clergy will also take a prominent part in the program.

At 9:30 a.m. ex-service men will fall in at the Legion hall. Permission has been granted by MD 13 for all Returned Veterans to wear their uniforms and as a result all of Coleman's returned veterans are requested to attend in uniform. Medals will be worn. The parade will be led by Pipe Major Jim Moore. Bugler Jim Lowe will sound "The Last Post." W. H. Garner will be in charge of the parade and color party.

The Catholic Youth Organization held a very successful masquerade on Wednesday, Oct. 31, in the Catholic hall. All persons attended in costume and various prizes were awarded. Those winning prizes included: best dressed gent, Louis Kratky; best dressed lady, Josephine Alampi; most original costume, Joe Gertman; most comical, Julius Barata and Donald Joseph. Rev. L. Sullivan made the presentations. Dancing and games were enjoyed, including a delicious luncheon served by the CYO members.

### Town Fire Fighters Wanted

Applications will be received at the Town Office from all men desiring to join Coleman's new fire fighting brigade. Payment will be made to those attending regular practices as well as to those who are present at all fires which may occur within the town.

TOWN COUNCIL

### THANK YOU!

I wish to express my grateful thanks to the Overseas Welfare Fund, for the monthly gift of cigarettes, to the Ladies Auxiliary, B.E.S.L., for their much appreciated Christmas parcels, and to the citizens of Coleman who contributed so generously to the funds of these two organizations and so made the gifts possible.

WORLD HAPPENINGS  
BRIEFLY TOLD

Woolwich Arsenal has received its first big order for war materiel—6,225,000 of them. The order will take two years to fill.

The Royal College of Physicians has awarded the Moxon Medal to Sir Alexander Fleming, discoverer of penicillin, for his work on the drug.

U.S. federal communications commission experts forecast that a "fairly good number" of television stations will go on the air during 1946.

The Canadian Army has handed over nearly 10,000 captured vehicles of all types to Dutch officials, Canadian authorities announced at The Hague.

Secretary of State Martin said at Ottawa that reinstatement of statutory holidays dropped for the war period "is being reconsidered by the government."

A Paris Daily Mail despatch says the French government is going ahead with atomic bomb experiments and is planning to use the Sahara desert as the stage.

The Nobel prize has been awarded to Sir Alexander Fleming, discoverer of penicillin, and to Sir Howard Florey and Dr. E. B. Chain, co-workers of Sir Alexander.

One in every five Merchant Navy officers who went to sea during the war lost his life, Capt. W. H. Coombs told the annual meeting of the Mercantile Marine Officers' Federation at London.

The newspaper Mainichi said the population of Japan was estimated by the Home Ministry at 77,997,042. The Ministry based its figure on last year's census which was undisturbed because it was "a military secret."

## SUNDAY SCHOOL LESSON

NOVEMBER 11

## WORSHIPPING IN THE CHURCH

Memory Selection: Praise ye Jehovah. I will give thanks unto the Lord with my whole heart. In the council of the saints, and in the congregation. Psalm 111:1.

Lesson: Nehemiah 8:1-12; Psalm 111; Isaiah 61:8; Acts 2:46-47; Ephesians 5:15-20.

Devotional Reading: Psalm 100.

**The Text Explained With Comments**  
A Worshipper's Vision of God, Isaiah 6:1-4. "The conception of Isaiah's vision is singularly pure and lofty. It is a worshipper's thoughts when he draws near to God. The vision is but the service in the temple transfigured. The prophet fell into a trance while holding the service and musing on its meaning. Suddenly the house and service and the ministers became transfigured; the walls went apart, and the roof lifted itself up till it seemed the dome of God's palace on high under which he stood, and the Lord the King sat upon his throne receiving the adoration of holy beings" (A. B. Devotion).

**A Worshipper's Vision of Self**  
Isaiah 6:5-7. God's holiness and glory made the prophet conscious of his own weakness, and he exclaimed: "Woe is me for I am undone . . . for mine eyes have seen the King Jehovah of hosts." He heard the seraphim praising God, and at once became conscious that his lips (his nature) were unfit to join in the song: "I am a man and am a sinful man." The deeper conviction of sin is always preceded by a clear comprehension of the purity of God. Recall Peter's exclamation, "Depart from me, for I am a sinful man, O Lord," Luke 5:8. Like all God's noblest workers, Isaiah trusted himself at the time of his call. So Moses, and Gideon, and Jeremiah acknowledged their own unworthiness for the task they knew devolved upon them, and, like Isaiah, they did not delay rendering themselves more fit.

**A Worshipper's Vision of Service**  
Isaiah 6:8. Now came, not a command, but a request, and Isaiah answered, not from compulsion, but of free will. "Whom shall I send, and who will go for me?" "Here am I, send me." The vision of God gave Isaiah a vision of himself; the confession of sin brought a consciousness of salvation; the reception from God led to service for God.

"There are some who delude themselves with the hope that Almighty God will take and thrust them into some field of service," Professor McFadyen writes. "But is that his way of dealing with men? He did not so deal with Isaiah. He did not say, 'Isaiah, come hither, I summon thee.' The cry is a general one, thrown out as it were, across the world: 'Who will go?' and it is for the man who has seen the vision, and felt the impulse of service rise in his heart, to say for himself, 'Behold me, send me.'"

## HIS REGULAR ROUTE

A motorist was proceeding along one of the main roads of a small town in Staffordshire when the driver of a coal cart in front suddenly turned to the right, down a side street.

After narrowly avoiding a collision the motorist deemed to know why the coal man didn't put out his arm to indicate which way he was going.

"Don't be so daft," he replied, "I always go down that street."

Pumpkins were cultivated by the Indians long before Columbus sighted America. Early settlers found them growing in what is now New England.

## Sunken Battleship

German Battleship Tirpitz Lying In A Fjord In Norway

The sunken battleship Tirpitz, former pride of the German fleet, probably will remain in a fjord near Tromsø, Norway, as a tourist attraction, Commodore Peter Bredsdorff said.

The Norwegian naval officer said the wrecked battleship, sunk by R.A.F. "earthquake bombs," had been inspected by British divers and all salvageable material has been removed—either by them or the Germans. What's left of the rusty hulk, still full of bodies of German seamen, is not worth cutting up for scrap.

"Tromsø was a great tourist place before the war and probably will be again," Commodore Bredsdorff said. "We can leave the Tirpitz where she is and run excursion boats out to her."

## MEET A CWAC—

Information has been received from National Defence Headquarters that Major Mary L. McIlvina is retiring from the C.A. (A). Major McIlvina, whose home is in Lethbridge, Alberta, was appointed to the Canadian Women's Army Corps on Sept. 10, 1941. She has held administrative posts in Calgary, Victoria and Regina. Major McIlvina proceeded overseas in July, 1943, and on her return to Canada the following November was named to her present post as officer commanding No. 112 Depot Company, C.W.A.C., Regina, Sask. Prior to her enlistment, Major McIlvina was employed as secretary and assistant chief clerk by the Canadian Pacific Railways in Lethbridge. She commanded the Lethbridge Branch of the Auxiliary Territorial Service, a volunteer organization, and was active in both the C.I.O. and the I.O.O.F. Major McIlvina is the wife of Hugh McIlvina, of the Customs office, Lethbridge, Alta.

\*\*\*\*\*

**CHRISTMAS PARCELS FOR C.W.A.C.'S OVERSEAS—**  
With the passing of Indian summer and the bleak, cold, forecasting cold, snowy days to come, it doesn't seem so hard to realize that there are not many shopping days until Christmas. Thus, with the thought uppermost in mind, the Women's Auxiliary Corps of Canada and members of the C.W.A.C. got together one night recently and packed over 30 parcels for our M.D. 12 girls "over there." Articles such as Christmas cake, cosmetic sets, soap, chocolate bars, Kleenex and other commodities unobtainable overseas, were packed and sent off, to bring a little touch of Canada to their Christmas. Even with the war on, there is so much work connected with bringing home our boys. So the girls are staying over there, helping to speed up their return; to saying nothing of their work in connection with Auxiliary Services in the occupied countries. At present there are about 25 C.W.A.C. attached to the Canadian Auxiliary Services, working in different capacities and clubs operated by these services. So it's "Good luck, soldier girls and a Merry Christmas from your friends back in Canada."

\*\*\*\*\*

**CWAC CRACK SHOT—**

Captain Lois A. M. Botterill, of Red Deer and Calgary, Alberta, and at present Commanding Officer of No. 3 Administrative Unit, C.W.A.C., Regina, Sask., is an expert rifle shot. A member of the Officers' Recreational Shooting Club, she had been awarded crests by National Defence Headquarters, namely: first class, marksman and expert. In order to qualify for the expert crest, 10 targets of over 95 out of 100 must be obtained. This is a better score than the average soldier. Capt. Botterill is at present organizing a Recreational Rifle Shooting Club for other ranks.

\*\*\*\*\*

**DISCHARGE OF C.W.A.C. PERSONNEL—**

Married personnel of the Canadian Women's Army Corps who wish to leave the service for the purpose of establishing homes, will be given the opportunity for an early discharge, if exigencies of the service permit, it was announced recently by the Department of National Defence. Accelerated discharges are already being granted to CWAC personnel, married to discharged service men. Applicants for discharge under the policy announced must satisfy their commanding officer of their intention to set up homes. If their services can be spared the discharge will be expedited. Both officers and other ranks can apply under this policy.

\*\*\*\*\*

**SHELL SAY IT EVERYTIME—**

Major (checking over letter): Correction here, Pte. Buttercup, I referred to the intelligence officer.

Pte. Buttercup: I thought you said intelligent officer, sir!

Major: Don't be so stupid, who ever heard of an intelligent officer!

WEARS SAME HAT HE BOUGHT 33 YEARS AGO—G. F. Grimshaw purchased this hat 33 years ago from Tommy Burns, heavyweight boxing champion, who had a store in Calgary. Mr. Grimshaw still wears the same hat.

## Did Invaluable Job

Wife Of Coast Watcher In Pacific Had Japs Worried

The coast watchers of the south Pacific earned the respect of every fighting man who came in contact with them and none was more honored than Ruby Boye, honorary third officer in the Women's Royal Australian Naval Service and lone white woman on Vanikoro Island.

One of the watchers whose activities were top secret during the war, Mrs. Boye transmitted by radio news of the weather and of Japanese ship, troop and plane movements. The coast watchers—scattered individuals or tiny groups from Australia, New Zealand, Britain, Holland, China, Canada, South Africa, Indonesia, Malaya and the Philippines also fought Japanese as well as spied on them.

In small scale battles on the Japanese-held islands on which they were hidden, the coast watchers killed nearly 4,000 Nipponese, took 74 prisoners and rescued more than 500 Allied airmen.

Mrs. Boye remained on Vanikoro with her husband, who had worked for a lumber company there. Her weather reports guided Allied bombers. Through her native scouts she often learned of enemy warships at anchor in isolated lagoons, or of Japanese planes landing on brand-new air strips.

The Japanese knew it, too. "Mrs. Boye calling Mrs. Boye on Vanikoro," came a sing-song voice on her radio one day. "This is Japanese commander. You get off air pretty damn quick and please to discontinue use of radio. You get right off Vanikoro or we come over and make everything hot for you."

But Mrs. Boye was not impressed; the Japanese was kept busy by proving Allied opposition and never arrived to punish her.

\*\*\*\*\*

**GUESTS SEARCHED**

The British aircraft carrier Implacable lost \$5,000 worth of articles of souvenir hunters when the ship was thrown open to public inspection at Vancouver Oct. 14. Officers of the United States cruiser Portland took care that that wouldn't happen at New York. When Portland was opened to visitors, Bluejackets were stationed at the gangplank to examine departing guests. Within an hour, each man had beside him a pile of steel helmets, sailors' hats, pieces of rope and assorted bric-a-brac.

## REHABILITATION WORK

There is no reason to treat every veteran as a difficult problem child. It is stated in a report issued by the Committee on Rehabilitation of the Health League of Canada.

"It is a fact that the majority of returned servicemen—especially those back from combat service—are proving themselves to be energetic and conscientious at work," the report says. "They have well-balanced personalities. They are resilient. They are adjusting themselves quickly to civilian life, and management is discovering that they have high standards of loyalty and teamwork. Actually, in many cases, these veterans will be able to teach management a lot about such matters as co-operation."

In the cases of the "few" who need special handling, the report advises that "you do not have to be a psychiatrist to help them. They can be handled with common sense—good foremanship—good personnel work."

The report describes in detail the cases of a few men who found it difficult to settle down and tells how plant personnel aided them in properly adjusting themselves.

## Unknown Heroes

Air Sea Rescue Service Attained High State of Efficiency

During the Battle of Britain, when most of the fighting took place over the English Channel, there was organized an Air Sea Rescue Service, a little known branch of the R.A.F. which, equipped with a few peace-time motor launches and obsolete warplanes, rescued many a gallant member of the "Glorious Few" shot down by enemy planes over the Channel.

By the time of the Dieppe operation in 1942, the Air Sea Rescue Service had attained a high state of efficiency with special equipment for life-saving at sea.

Figures just released show that nearly fourteen thousand R.A.F., R.C.A.F. and United States aircrew members were rescued from the sea by the alert and watchful Air Sea Rescue Service.

It is a proud record of grace and skillful men tirelessly engaged on merry errands, indifferent to foul weather and enemy action. Not less heroic were they than the gallant men whose lives they saved—Halifax Herald.

An airplane is required by law to fly at 1,000 or more feet over congested areas.

## SHE KISSED GEN. EISENHOWER

With an audience of more than 20,000 startled G.I.s, W.A.C. Pte. Betty Rising of Middletown, Conn., gave Gen. Eisenhower a kiss on his 55th birthday. Betty, 23, a cheer leader at a football game in Germany, climbed into the general's box and planted the kiss—"on impulse," she said later.

## Jade Carving

Hardness Of Material Makes It Difficult To Handle

Jade, like the other semi-precious stones, is cut into shape by means of sawing, drilling or grinding, and for this preparation the craftsman uses drills, etc., actuated by a foot treadle. His tools have to be fed continuously a paste consisting of water and fine sand. The hardness of jade makes this technique essential, and thus it is the tools which remain fixed and the carving which is turned as required. The carver does not clamp down a rough piece of jade and proceed to work upon it; he clamps down his tools and brings the jade block to them, a series of operations which demand the utmost nicety of judgment and skill.—Canadian Mining Journal.

Potatoes were first discovered by white men in Colombia, South America, in 1538.

## SWEET SORROW

By JEAN CRAIG

Copyright  
Wheeler Newspaper Syndicate

Anthony stood in the summer darkness shrouding Doris's verandah smoking, tipping his ash into the garden below and watching the sudden red glow as he puffed. "The choice," the movie scout had told him, "lies between you and a girl. I'm offering you the contract first. Do you want it?"

"Want it?" Anthony had almost leaped into the air. "Want it?—man, I've been working for this all my life! I'll say I want it!"

The short, fat man with the Hollywood suit, who had been scouting the Drama Festival of the night before with a movie contract in his hand, smiled quietly. "All right, then, I'll bring the papers around for you to sign tomorrow."

The fat man had shaken hands and left; Anthony had remained behind, still a little dazed from the visit, not quite believing it had happened. That was the trouble when you had dreamed about a thing too long. All through the years of Little Theatre before the war, his concert tours with the Army Show, he had been studying, working, with the legitimate stage or Hollywood at the back of his mind. Now, he thought wryly, he could steal a scene with the best, or worst, of them.

He, Ronald Anthony, in pictures! There had been so many others who had made good. He could do it, too. He could feel that his performance had gone past the stage of being a series of words and tricks, now he knew it was a living, breathing character that walked on the stage.

Clean as it Polishes  
CEDAR FURNITURE POLISH  
SAVES WORK  
USE IT IN YOUR DAILY DUSTING

Here's a SENSIBLE way to relieve MONTHLY FEMALE MISERY  
Lydia E. Pinkham's Vegetable Compound not only helps relieve monthly pain but also accompanying nervous, tired, high-strung feelings—when due to functional periodic disturbances. It's one of the most effective medicines for this purpose. Pinkham's Compound helps nature! Follow label directions. Try it!

"But—Doris. They had planned to get married next year, as soon as his office job developed into something a little better. They had been the props of the Little Theatre group in their city before the war... Doris had had a small part in one of the productions at the Drama Festival the previous evening.

They had both practically given up anything coming of their acting now. Resolved to settle down, treat the theatre only as the fascinating hobby it was. Now what? The agent, Anthony remembered in dismay, had mentioned a contract clause forbidding marriage for three years. They couldn't take chances in building up a young romantic star and then have him spoil their publicity.

Anthony paced nervously up and down the verandah. Three years! That was a long time to wait, especially when she'd waited so many years now. There had never been anyone else through school, through the depression. She had written to him faithfully when he'd been in Italy, England, Holland, but you just couldn't keep a girl hanging around forever on promises.

Maybe he'd gone past the promising young actor stage. What if he went away, became just another bit actor? He was assailed with the old fears of someone else taking Doris which he'd had while overseas. Lord knows why she hadn't married someone else already—there were plenty who wanted her.

He had a raise coming. They could be happily married and settled down to raising a family next year. Why throw away that security for a chance at something? On the other hand, if he didn't go would he be bitter? Would he somehow think that Doris had stood in his way?

He pushed the doorbell three times, the way he always had, and shouted down the hall, "Come on out on the verandah—it's cool."

He heard Doris's heels tapping down the hardwood. It would be polished smoothly—Doris kept her house beautifully clean, in between times of earning a living, sending her younger sister through school.

She was wonderful, all right. He felt her come up beside him on the verandah, slip her fingers into his, her face turned up, waiting to be kissed. When he had finished, he was trembling, filled with infinite sadness and fear. Not to kissing that for years? Not to have her looking up at him like that in the dusk, like a tiny Hawaiian doll? He was in love, that was all there was to it.

"No," he muttered fiercely to himself.

"What did you say, dear?" "Just muttering," he smiled. He couldn't tell her, because she would insist on him taking his opportunity. Not stand in his way. His arm tightened about her.

As soon as he left her that night, he phoned the hotel where Jenkins, the agent, was staying.

"Hello—who is it?" asked the scout in a slightly sleepy and peevish tone.

"It's Anthony. I just phoned to tell you I won't be taking the contract."

"What?—don't be a fool!"

"There are different kinds of fools," said Anthony slowly. "I'm sorry—and thanks all the same."

There was a silence at the other end of the line. "All right," said Jenkins. "You know what you're doing."

Anthony went to bed, humming, and feeling happier than he had all day. What if he had turned down his chance? He had made sure of Doris and Doris was the most important thing in his life. He slept soundly, rushed through a busy day at the office and came home next evening feeling alive, like a king.

Doris was waiting for him at his boarding house. For a startled moment he thought there was something wrong, but she threw her arms around his neck, cried, "Oh, darling, I'm so happy! A wonderful thing has happened!" She snuggled close to him. "But I'm going to miss you, dear."

He held her away from him, staring, throat dry.

She waved some papers under his nose. "Look! Isn't it grand? There was a movie scout at the Drama Festival the other night—and he's just signed me to a three year contract!"

### Church Bells

About Ten Thousand Were Confiscated in Poland

According to a report recently sent by V. Myliczek of Prague to the NCWC, about 10,000 bells were confiscated from the Catholic churches in Czechoslovakia by the German authorities during the war.

A greater number of these bells cannot be returned as they were used for the production of German guns. Only a small number was left still in Prague's warehouses. Fortunately, among them are some of the oldest and most valuable.

### LONG SERVICE

After completing 60 years in the service of one family, Robert Jacobs, 80, has retired. Mr. Jacobs entered the employ of John M. Gill, Brockville, Ont., in 1885 as a coachman and since Mr. Gill's death he was chauffeur for his son, Col. R. J. Gill.

The average depths of oceans is about 13,000 feet. 2645

Sweet and cool in any Pipe

CANADA'S STANDARD PIPE TOBACCO

BY JIM GREENBLAT

† Dunville, Ont., has novel things happen: On Sept. 18 last Mr. and Mrs. George Robins celebrated their 56th wedding anniversary, a daughter, Mrs. Al Perman her 32nd and her daughter, Mrs. Wm. Long, the fifth, all on same day. . . . At Morden, Man., the firm of Gladstone & Sawatzky changed its name to Sawatzky & Gladstone. . . . Off Port Alberni, B.C., Morra Anderson caught an 8-ft. shark in his net, from which 40 lbs. of liver was taken. . . . The little town of Cabri, Sask., (pop. 435) shipped over 125,000 lbs. of salvage towards the war effort in four years.

† The Smiths Falls Record News tells that at the home of Mrs. Morrell Perrin of South Elmsley, over a year ago, there was hatched out a queer thing with a duck's body and head and the feet of a hen, and it is still trotting around. . . . Always worthy of mention, Mr. and Mrs. George Morfarlane of Almonte, Ont., recently celebrated their 62nd wedding anniversary. . . . There were ducks here at McDonald's Lake, Sask., where a farmer threshed 200 bushels of barley. He left it lying in the field, the next day he came to haul it home, and there were only 120 bushels left.

They're staunch eaters cut west, those ducks.

† A saga of womanly initiative and courage. Mrs. Katharine Marston, editor of the Elora, Ont., Herald, awarded the Lorne Eddy trophy for the best editorial page in the smaller weekly newspapers, was widowed four years ago when her farmer-husband died, leaving her with four children. She bought the Herald. Children helped with the housework while she reported the news and wrote the editorials, and added to the circulation. She deserves every success in life.

† Isn't this cute, from the Leader at Carman, Man.: Why, I heard of a young couple, presumably so absorbed in some topic of conversation—possibly rural electrification—that they didn't discover the lamp had burned dry till the following morning. In fact, it could have been mother who discovered it!

† Rev. Anton A. Nelson of Regina, Sask., stopped his car by the side of a road near the town of Summerberry to take a snooze. Unfortunately there had been an attempted burglary and a posse that was out to get the culprits, came upon the car and in mistaken identity fired two shotgun blasts at the rear of car, which woke the reverend gentleman up. He roared away and shook off the posse. Later he was flagged by the Mounties. The fiasco came to an end, and all was forgiven and forgotten.

† Restigouche county of New Brunswick is proud to proclaim the fact that they contributed more than ten tons of clothing to the clothing drive for destitute Europe.

† How the mighty have fallen: The home which W. G. Mellor is moving into in Shaunavon, Sask., from his farmstead, was once the Merchants Bank at Dollard, Sask., later the Banque d'Hochelaga and later still the Banque Canadian Nationale.

And then there's the story about the school youngster, asked to name the Great Lakes, who replied: "Superior, Michigan, Huron, Erie, Ontario and Veronica."

### GEMS OF THOUGHT

#### KINDLINESS

The best portion of a good man's life is his little, nameless, unremembered acts of kindness and love—Wordsworth.

Kindness in itself is the honey that blunts the sting of unkindness in another.—Lauder.

A pure affection, concentric, forgetting self, forgiving wrongs and forestalling them, should swell the lyre of human love.—Mary Baker Eddy.

It is one of the beautiful compensations of life that no man can sincerely try to help another without helping himself.—Bailey.

Those who bring sunshine to the lives of others cannot keep it from themselves.—J. M. Barrie.

The one who will be found in trial capable of great acts of love is ever the one who is always doing considerable small ones.—F. W. Robertson.

#### SURE OF A JOB

A man who gets to work on time, who can find plenty to do without calling in the manager and three assistants, who does not sulk when he has to put in an hour overtime in an emergency, who is naturally courteous to everyone. Apply any time, any place, to an employer.

The best sailcloth, once made from long flax because it possesses flexibility, lightness and strength, is now made of nylon.

### Concrete Houses

Being Built in England To Speed Up Housing

To speed up housing construction and to save labour a new British structure is being demonstrated at an exhibition of concrete houses near London at Eastcote, Middlesex. Wooden frames and huge moulds for the walls, with the necessary openings for windows, doors, water and gas-pipes, etc., are erected on the site by means of cranes. The concrete is then poured into the moulds resulting in 12-inch thick, weather-proof and heat-retaining walls. The wooden frames and moulds are then removed by the cranes. The front of the house is built of bricks and the roof is prefabricated. It is estimated that the erection can be carried out, to a great extent, by unskilled labour and can be made habitable within a month.

Maine is the only state in the Union that touches only one other state.

### Sinus Sufferers

CHEERS ARE NOT ENOUGH...

Let's back up the welcome to our returning heroes with more Victory Bonds. Canada must care for our wounded veterans, rehabilitate all service personnel, care for the dependants of the fighting men who can never return and assist those veterans who may never regain full capacity. Every Victory Loan dollar helps to do all this and is also a secure, sound, interest-bearing investment for the future.

## Theatre Notes

### "THE KEYS OF THE KINGDOM"

From the living pages of one of the best-loved best-sellers of our time—A. J. Cronin's "The Keys of the Kingdom"—20th Century-Fox brings to the screen of the Palace theatre tonight the long-awaited motion picture that crashes new

frontiers of high adventure and deep emotion.

When Cronin's classic novel became a "run-away" best-seller and one of the most widely discussed books of a decade, bidding for the movie rights reached a spectacular high. Twentieth Century-Fox with a record of its triumphantly successful filmizations of other great books, including "How Green Was

My Valley," "Grapes of Wrath" and "The Song of Bernadette," behind it, won out over other studios. But with the acquisition of the screen rights, the studio found itself faced with two formidable problems—the difficulty of finding a male star with the qualifications and ability to do justice to the role of Francis Chisholm, the young Scotchman, whose life story is the basis of the book, and the problem of giving the book a screen treatment that would preserve its full dramatic and emotional role.

The work of scripting "The Keys of the Kingdom" became one of the most difficult assignments ever to face Hollywood authors. The story ranges from Scotland to England and on to China, where Chisholm becomes a missionary of Pai Tan. First script treatment was given by Nunnally Johnson; final screen play came from the hands of Joseph L. Mankiewicz, the picture's producer.

#### "BLOOD ON THE SUN"

Hara-kiri is an honored institution in Japan. Before the war, approximately 6,000 people a year took their lives in the island empire. Since the war, many high Japanese officers have resorted to the ceremony of self-imposed death rather than explain to the Japanese people — or their emperor — why MacArthur kept gaining in the Pacific after the American fleet had been supposedly destroyed.

Admiral Yamamoto was one of the latter. His death, at first reported to be the result of an "air accident," was later intimated pretty strongly—even by Domei, the Japanese news agency — to have been self-inflicted. He had promised his people that he would "dictate peace terms in the White House."

A graphic account of the ceremonial involved when a Japanese officer takes his life in hara-kiri is furnished in the William Cagney film "Blood On The Sun," co-starring James Cagney and Sylvia Sydney and directed by Frank Lloyd for United Artists release. "Blood On The Sun" will be shown at the Palace theatre starting Saturday.

John Emery, in the role of Baron Giechi Tanaka—creator of the infamous Tanaka Memorial, the Japanese "Mein Kampf"—decides to take his life when James Cagney, American newspaperman, discloses the "Memorial" to the outside world and thus frustrates Tanaka's scheme for taking it unawares with his timetable of conquests.

## Suggestions Wanted On Skating Arena Problem

Plan on Moving Rink to Flumerfelt Park; Desire it to be a Year-Round Community Centre.

The Coleman Sports Association has decided that in order to most advantageously operate the local arena, the said arena should be moved from the present site to one in Flumerfelt Park. The dust and smoke from the coke ovens and tipples makes it almost impossible to operate the arena satisfactorily. Ideas from organizations and individuals are invited as to how this work might best be accomplished, financed, and what it should comprise to be more of a community centre than a mere skating rink.

All suggestions will be given careful consideration. Send them in to The Journal.

This will be a big undertaking and will need the support of all in town to be really successful. Discuss it with everyone you see. Get the whole town aroused so that the committee will feel that they are doing something of service to the community—and something desired by the whole community.

—V—

## Hockey Notes

(Isobel Ewing)

After a tryout with Montreal Canadiens, Jimmy Slugg has reported to Vancouver. Jimmy starred during the past two seasons as a centreman with Edmonton Canadians. He won the 1944-45 scoring championship and the most valuable player award.

The Coleman Intermediate Hockey Club has appointed Bill Fraser as its playing coach. Bill starred as a centre for the Coleman Canadians and his valuable experience should be of considerable help to this year's club.

The Coleman Intermediate Hockey Club is sponsoring a dance at the Community hall, Friday, Nov. 23. "Watch" for further announcements.

ments.

The minor league teams of pee wees, midgets and juveniles will soon be selected. Players wishing to play are requested to sign on with Bill Gate at the Red and White Store.

## Coleman Will Reach Its \$200,000 Objective

It would appear that Coleman bids fair to secure its self-imposed quota of \$200,000. On Tuesday evening it was only \$10,000 short of its goal with some sections still uncanvassed.

Severe weather conditions of the past few days has tended to slow up canvassing as canvassers plough their way through deep snow, sub-zero weather and darkness.

The loan closes on Saturday evening and should any person desiring to purchase bonds and who have as yet been uncanvassed, they are advised to take their purchases to the bank where Mr. Rippon will write out their orders.

As can be imagined from the total subscriptions, citizens have required little if any coaxing to purchase bonds. In fact, the reverse has been true, all have been only too eager to buy bonds. This will be the last loan in which the canvassers will make door to door calls. During the past four years they have called faithfully at each household selling bonds. They have enjoyed the work despite the fact that on numerous occasions they have had to go out on nights such as we are at present experiencing.

On Saturday night they will hand in their sales kits to Unit Organizer Frank Aboussafy and say a silent Adieu to the citizens in their respective zones, who through their subscriptions have kept Coleman's name high among the successful units of the province. It has been most interesting work and it has been made easy by the hospitality and good nature of Coleman citizens.

### WEDDINGS

KAY—VAN MAARION

At St. Clement's Church on Monday the Rev. W. A. Edge officiated at the wedding of Flying Officer George W. Kay (RAF), elder son of Mr. and Mrs. J. E. Kay, "Cartref," 76 Willbutts Lane, Rochdale, and Miss Doris Van Maarion (serving with the CWAC in Holland), daughter of Mr. and Mrs. J. Van Maarion, of Alberta, Canada.

The bride was given in marriage by Mr. Philip A. Poole and wore a gown of white brocaded satin with veil and headdress to match, and she carried a bouquet of red roses and white heather. She was attended by Miss Alice Kay, sister of the bridegroom. Mr. Robert C. Kay, brother of the bridegroom, carried out the duties of best man, and the groomsmen were Mr. Brian Farrow. Appropriate music was played on the organ by Mr. Briery.

After the honeymoon the bride and bridegroom will return to their respective units.

## The Housing Problem

**HOUSING IS REGARDED** as Canada's greatest post-war problem. Congestion and lack of living accommodation is felt most severely in the large cities, but there is almost no community which has not been affected by the serious housing shortage which has developed here since 1939. It is estimated that by the end of the calendar year following VE-Day, 50,000 new dwellings will have been completed, but it has been necessary to plan a considerably larger program to meet the need for houses in the following years. In addition to the need for new homes, there is much repair work to be done on dwellings and buildings, since labour and material for normal maintenance has been unavailable during the war. Hon. J. L. Ilsley, Minister of Finance, recently told Parliament that Canada is on the verge of a very large, and possibly an unprecedentedly large housing program, and such a program will no doubt affect many of our post-war problems, through the demand it will create for labour, raw materials and other essential supplies.

### Vast Program In Britain

While the housing problem here is extremely serious, in Great Britain the situation is considerably more grave. That country was already facing a shortage of living accommodation in 1939, and during the war years this condition was greatly aggravated, since no new construction was possible, and in addition, many millions of homes were destroyed by enemy bombs. It is estimated that in the London area alone, almost two million homes were destroyed or damaged and that of these, forty-two thousand were totally demolished, and that in spite of an intensive drive to repair those houses which were only partially destroyed, it was reported that there are still seven hundred thousand damaged houses in the London area. Similar conditions exist in many other parts of Britain, and the government there has undertaken a vast building and town-planning enterprise as part of its reconstruction program.

### Provides Work For Veterans

In re-building its homes and communities, the British Government is endeavoring to improve living conditions for the people, and to create planned communities. In all parts of the country this "planned reconstruction" is taking place, and the British Minister of Labour and National Service, Mr. Isaacs, stated recently that by next June, approximately eleven hundred and twenty thousand men will be employed in the building and civil engineering industry. The houses and buildings to be constructed will be based on the latest scientific knowledge, since systematic building research has been carried on for some years in anticipation of this time. This research has revealed many new facts concerning building materials, pre-fabricated homes, equipment, and other important factors. A program for training many thousands of ex-service men for construction work has also been commenced, and in addition to alleviating the housing shortage, Britain's plans for re-building are also aimed at providing long-term employment on a large scale. We in Canada may watch with interest, the progress of this vast undertaking.

## Price Control And Rationing Information

Q—My husband will be returning from overseas within the next week. Will I receive rations for him for the thirty days he will be home before he is discharged from the army.  
A—Servicemen on their pre-demonstration leave will be presented with a combination priority purchase and ration book certificate, which means that these on discharge leave may apply immediately, either in person or by mail, to their nearest local ration board or ration branch, for a permanent ration book.

Q—My I purchase a long evening dress?

A—Restrictions on the manufacture of wedding gowns, dinner and evening dresses and evening skirts have been removed, and you may now buy a long gown if you wish.

Q—I am a farmer and slaughter for my own use only. Do I have to report this to the Wartime Prices and Trade Board?

A—Yes, you must register with your nearest local ration board, and send in coupons to the local ration board to cover the amount of meat you use at the rate of four pounds carcass weight per coupon.

Q—How can I obtain the price ceiling for a car I wish to sell?

A—Get in touch with the nearest Wartime Prices and Trade Board office and they will give you the price ceiling.

—O—  
Please send your questions or your request for the pamphlets "Consumers' News" or the Blue Book in which you keep track of your buying prices, mentioning the name of the paper to the nearest Wartime Prices and Trade Board office in your province.

**RED CROSS SHIPMENTS**  
Twenty-one countries received 578,052 Canadian Red Cross cases of supplies and relief goods in the first nine months of 1945. About 230 ships had been used in transporting the goods, only 12 less than for the whole of 1944.

**Answer To Last Week's Puzzle**

## Indians In Canada

Census Taken Last Year Shows Population Not On Decline

Contrary to popular belief, Canada's Indian population is not on the decline.

Hon. J. A. Glen, Minister in charge of Indian Affairs, has announced that the Indian population is 125,666 and is increasing at the rate of 1,500 per year. Living in the prairie provinces are 42,532 Indians.

The minister said that according to a census taken in 1941, 15,933 Indians were residing in Manitoba; 14,158 in Saskatchewan, and 12,441 in Alberta.

The distribution through the other provinces is: British Columbia 25,515; Ontario 32,421; Quebec 15,194; New Brunswick 2,074; Nova Scotia 2,364; Prince Edward Island 266; Yukon 1,531; Northwest Territories 3,516.

There are 7,658 Indians over the age of 65, while there are approximately 5,000 over 70.

The Indians have 5,500,000 acres of land of their own, and a number of the reserves contain the best agricultural land in Canada, however there is a comparatively small acreage under cultivation. In 1944 land under cultivation amounted to only 159,290 acres.

In addition to the reserve lands owned outright by the Indians, Mr. Glen said the Indian department in recent years leased from provincial governments 35,000,000 acres for the establishment of beaver reserves and the propagation of muskrats.

## Gives Grand Relief FROM SNIFFLY, STUFFY DISTRESS OF Acute Catarrh!

Instant relief from catarrhal misery starts to come when you put a few drops of Vicks-Va-Tro-Nol in each nostril. Va-Tro-Nol is so effective... results are so good... because it (1) reduces swollen membranes, (2) soothes irritation, (3) helps clear away congestion... and thus makes breathing easier. Many catarrh sufferers say it's the best relief they've found. You, too, will like the way it works! Try it!

**VICKS VA-TRO-NOL**

## SMILE AWHILE

"What's that piece of string tied round your finger for, Bill?"  
"That's a knot. Forget-me-not is a flower. With flour you make bread, and with bread you have cheese. This is to remind me to buy some pickled onions."

Gertie: Thanks for the seat, it was kind of you.  
Sailor: "Of at all. I know some men who give their seats to pretty girls only, but looks make no difference to me."

Editor: Look like we have another libel suit on our hands.  
Lawyer: What is it this time?  
Editor: We printed in old Brown's obituary that he'd gone to a happier home, and Mrs. Brown is suing.

Johnny (at zoo): "Isn't that monkey just like Uncle James?"  
Mother: "Don't be so rude."  
Johnny: "But the monkey didn't hear."

"Do you know that your wife is going about telling everybody that you can't keep her in clothes?"  
"That's nothing. I bought her a home and I can't keep her in that either."

"I don't like the look of that halibut," said the lady customer.  
"Lady," asked the market man, "if it's looks you're after, why not buy gold fish?"

Auntie: "How did Jimmy get on in his history exam?"  
Mother: "Not very well, but it wasn't his fault. They asked him things that happened before the poor boy was born."

"When I look Brown's lawn mower back, he swore at me over that missing screw."  
"We can't have that sort of thing, dear, you must borrow the vicar's next time."

Butcher: Here, madame, is a nice ham, home-cured. But I want one that has never been ill.

Young Man: How about some old-fashioned loving?  
Sweet Young Thing: All right. I'll call grandmother down for you.

It takes three dozen fresh egg powder to make a pound of whole egg powder.

## Most Despicable

The Deliberate Use Of Children In Crime A Vicious Practice

Nothing could be more despicable than the deliberate use of children in crime. It is quite possible for those who are sufficiently depraved in conscience to pervert and lead astray the minds of children by the promise of reward.

The investigators in such cases, of course, would see to it that the children received very little. That would not be the real wrong and the real injustice. The wrong would be in twisting the minds of the very young so that they would look upon crime with tolerance and be ready to engage in it.

Such children, because of the greed and cupidity of those older, are liable to become criminals for life. Let us hope that wherever such a nation presents itself the arm of the law will reach out to punish the guilty and protect the weak.—Fort William Times-Journal.

## GIFT FOR CATHEDRAL

A battle-worn white ensign which flew at the mainmast of H.M.S. Warspite during the Battle of Matapan and the red ensign flown by the Queen Elizabeth on her wartime voyages have been presented to St. Giles cathedral.

**Easy Way to Treat Sore, Painful Piles**

Here is the chance for every person in Canada suffering from sore, itching, painful piles to try a simple home remedy with the promise of a reliable firm to refund the cost of the treatment if you are not satisfied with the results.

Simply go to any druggist and get a bottle of Hem-Roid and use as directed. Hem-Roid is an internal treatment, easy and pleasant to use and pleasing results are usually noticed. It soothes and soothes, relieves pain subsides and as the treatment is continued the sore, painful pile tumors heal over leaving the rectal membranes clean and healthy. Get a bottle of Hem-Roid today and see for yourself what an easy, pleasant way this is to rid yourself of your pile misery.

NOTE: The sponsor of this notice is a reliable firm, doing business in Canada for over 30 years. If you are troubled with sore, itching, painful piles, Hem-Roid, must help you quickly or the small purchase price will be gladly refunded.

## When your BACK ACHES...

Backache is often caused by lazy kidney action. When kidneys get out of order excess acids and poisons remain in the system. Then backache, headache, rheumatic pain, disturbed rest or that "tired out" feeling may soon follow. To help keep your kidneys working properly—use Dr. Kelsey's Kidney Pills. Time-tested, popular, safe, non-habit-forming. Demand Dr. Kelsey's Kidney Pills, in the blue box with the red head. Send away here, 135

# NINETY MILLION EUROPEANS ARE SAID TO BE FACING STARVATION THIS WINTER

LONDON.—Ninety million European allies in urban areas may be "near starvation" this winter, Dr. H. C. M. Case, an agricultural economist expert of the United Nations Relief and Rehabilitation Administration, said here.

Dr. Case issued the statement after studying food production in Czechoslovakia, Greece, Italy, Denmark, Holland, Belgium, Yugoslavia, and Norway.

Domestic food production will provide an average of only 1,200 calories daily this winter for about 80,000,000 persons, he said. Nutritionists generally consider 2,600 calories as "an acceptable minimum average."

"If the amount consumed by people off farms is to be raised to even 2,000 calories daily, the nations we have studied must import approximately 9,000,000 tons of food before the 1946 harvest."

Dr. Case said U.N.R.R.A. already has shipped more than 1,000,000 tons of food into eastern and southern Europe, along with 2,400 million tons to increase livestock production. U.N.R.R.A. is scheduled to ship 5,000 head of cows, horses, and mules per month during the rest of the fall and winter.

Drought last summer intensified war-caused food shortages, he said. Normal crops often were not sowed at the proper season, and "seed had to be used at a time as food." Fertilizers also have become scarce.

One of Europe's most vital needs is food for livestock to produce essential animal fats and proteins, he continued, explaining that "dairy cows have been decreased by 25 per cent., hogs by 40 per cent., and poultry by much more. Meanwhile, the demand for grain for human consumption has reduced livestock feed."

"As long as these feeds remain scarce, the yield of milk per cow will decline, and pigs and other meat animals will be slaughtered at light weights. This would be deplorable because prolonged undernourishment has left millions of Europeans in poor condition to face another winter on a diet short of proteins and fats."

## BIG EGG SHIPMENT

Thirty-Four Million Eggs Loaded On Ship In B.C.

NEW WESTMINSTER, B.C.—Thirty-four million eggs were loaded aboard the Blue Star line refrigerator ship Columbia Star here. The 85,000-case shipment from poultry farms within a 20-mile radius of this area is believed the biggest ever loaded on one ship at one time anywhere in the world. It is the first seaborne egg cargo out of British Columbia since 1939.

Sole of the eggs to the British ministry of foods by the Western Canada Produce Association will go to H.B.C. poultrymen almost \$1,000,000.

Over hundred tons of frozen meat, first such cargo ever put aboard ship from B.C. for the United Kingdom, where loaded with the eggs.

## NEW AUTOS IN U.S.

WASHINGTON.—New automobiles soon to go on sale in the United States will not be rationed, the government announced. The office of price administration and the war production board, in a joint statement, said that with nearly 21,000,000 cars on the road, and new production under way, "there is no longer danger of a general breakdown of the automotive transportation system."

# BRITAIN IS UNABLE TO SEND FOOD TO HUNGRY CONTINENT WITH OWN RATIONS TIGHTER

LONDON.—Britain, a good neighbor to the hungry continent when the war ended, has found that for the sake of her own hard-rationed people she can give no more.

Sir Ben Smith, food minister, was asked in the House of Commons about food for Europe. He replied: "This country reduced to the minimum level of the whole of its stocks at the end of the European war. That could only happen once. We have no further stocks to deplete. My job is to feed the people of this country and that is the job I am going on doing."

With rations tighter than at the height of the war, authorities say further cuts cannot be imposed without endangering health.

Organizations like the United Nations Relief and Rehabilitation Administration now have the major responsibility for obtaining the food Europe needs.

Complaints from soldiers returning from overseas service to civilian life have indicated the austerity of the British diet.

## ALL-TIME HIGH

Has Been Reached In Recent Cattle Slaughtering In Canada

OTTAWA.—The Canadian meat board says that current slaughtering and exports of beef have reached an all-time high.

Recent weekly cattle slaughtering have been 52,000 head, which is 20,000 more than in corresponding weeks of last year.

Meat board chairman, J. G. Taggart, says that most of these record cattle marketings are being rushed overseas to relieve Europe's acute food shortage.

During the past four weeks the board bought for export to the United Kingdom 16,825,000 pounds of carcass beef and 5,220,000 pounds of carcass beef. In addition the board bought 14,284,000 carcass weight of beef for use in canned meat for UNRRA and liberated areas.

## TECHNICAL SCHOOLS

Insitutes For The Veterans Is Recommended In Report

OTTAWA.—Technical institutes for students past the secondary school stage were recommended in the report of the Royal Commission on veterans' qualifications tabled in the commons by Labor Minister Mitchell.

The Commission, which made a study of veterans' rehabilitation problems, also proposed adoption of common standards and regulations for apprentices and mechanics in various provinces and special assistance to universities in providing facilities for veterans.

## LOWER RATIONS

Canadians In Germany Get Same As Troops In Britain

OTTAWA.—The rations of the Canadian occupational army in Germany have been reduced during the last eight or 10 days to bring them in line with the rations fed troops in Britain, Defence Minister Abbott said in the commons.

While the troops were in active operations on the continent their rations were slightly higher than those of the troops in Britain. Now that active operations had ceased the rations were brought in line.

## BRITISH DEVICE

Will Detect Any Factory Which Is Manufacturing Atomic Energy

LONDON.—The British House of Commons was told that an airplane device has been invented which will detect any factory in the world manufacturing atomic energy.

This came from Captain A. R. Blackburn, Laborite member in the house, and former member of the staff of Marshal Sir Bernard Montgomery. Blackburn said the instrument detects the release of radioactive materials.

## BAN LIFTED

OTTAWA.—Lifting of restrictions on the holding of conventions or other meetings which necessitate rail, bus or air travel by more than 50 persons, was announced by the price board, effective immediately. The board also revoked regulations governing the use of hotel accommodations in certain areas by persons attending conventions and other meetings and by members of organized travel groups.

Sir Ben mentioned the government's intention to bring rations in the armed forces into line with those of civilians and added that former soldiers should become used to civilian rations even if they found them small. Aid. C. W. Hewson, speaking at a meeting of the National Federation of Meat Traders at Blackpool, said that under the ration, a person can obtain meat worth only 12d (about 26 cents) a week. This did not meet the need, he added.

Canned meat products have disappeared from many shops with the end of lend-lease and increased shipments by the dominions still have to make their benefits felt generally. Officials pointed the general food problem by noting that in 1943 14.6 per cent, and in 1944 11.7 per cent, of the total food imports to the United Kingdom were under lend-lease. No provision has yet been made to replace the help given by Canada, South Africa, Australia, New Zealand and other food-exporting countries.

POLAND'S NAME IS ADDED—

Wincenty Rzymowski, Polish foreign minister and first high-ranking official of the Warsaw government to visit Washington since that regime was recognized by the U.S., signs the United Nations charter for his government.

## ORPHANS ADOPTED

Many Foreigners Are Among Children France Is Caring For

PARIS.—Women in France are faced with a tremendous post-war problem in the great number of French war orphans. These are not only children of men and women who were killed in the war, but the children of men who were taken to concentration camps in Germany and have not been heard of since. Temporarily, the French government has adopted all these children and it's even extended the adoption to foreigners, some of them Germans, who are anti-Nazi refugees in France and helped the French underground.

Sign For Victory—Buy Bonds

WENT TO OTTAWA TO BRING WIVES HOME—Left to right: Ross McNaney, Norman Davidson and W. T. Cooper, who went to Ottawa to ask that the dominion government put shipping space at the disposal of wives of Canadian servicemen who want to leave the United Kingdom and join their husbands. Mr. Davidson, chairman of a committee of six veterans who left for the capital, estimated there are 32,000 brides of Canadians overseas and 8,000 have been cleared by the immigration authorities but are still waiting for space.

FIRST MAJOR JAP WAR CRIMINAL TO FACE TRIAL—Jap Gen. Tomoyuki Yamashita, under guard, enters the high commissioner's residence in Manila where he was arraigned on war criminal charges by a U.S. commission.

## WARNS OF DANGER

Prime Minister Smuts Says Chaos Threatens To Engulf Europe

CAPETOWN.—Prime Minister Smuts said "ominous signs" are appearing in Europe and suggested an international peace conference be called immediately.

Speaking at a "thank-you-Smuts" demonstration, South Africa's war leader said:

"If a decision in the present form of meeting between statesmen proves impossible, let there be an appeal to a higher court—let an international peace conference be convened and the conscience of the nations be brought to bear on the problems which their leaders find too hard to solve."

"San Francisco, it should be remembered, was a long-range plan dealing with problems of war in the future and was not concerned with results of this war and the chaos now threatening to engulf Europe."

"This problem is one for present leaders to deal with as best and as wisely as they can."

"The immediate prospects are dark and threatening in the extreme."

## HAS HUGE FORTUNE

Allied Headquarters Has Received Report From Japanese Emperor

TOKYO.—Emperor Hirohito's imperial household fortune amounts to 1,590,615,500 yen, or slightly more than \$106,000,000, Allied headquarters announced.

The total, supplied Allied headquarters in compliance with Gen. MacArthur's directive, includes cash, negotiable instruments, real estate and timber holdings, but does not include silver bullion, art objects and jewelry, which will be reported later.

The figure does not include the household fortune of the 14 imperial princes.

## STREET RENAMED

LONDON.—To commemorate the role the R.C.A.F. played in the defence of Britain, the path that forms the northern boundary of famous Lincoln's Inn fields has been renamed "Canada Walk".

# WORLD STOCKS OF WHEAT ARE SHOWN TO BE BARELY ADEQUATE TO MEET DEMAND

OTTAWA.—An inventory of wheat stocks in the four major exporting countries disclosed stocks in the United States and Canada for 1945-46 totalling 211,000,000 bushels, about 177,000,000 bushels less than the total supplies available a year ago, the Dominion bureau of statistics reported.

Expectations for the Argentine crop was about 18,000,000 bushels, the bureau said, and because of high consumption and drought "whatever carry-over remains in the republic at the end of the crop year will be quite insignificant."

By the end of September, Australian stocks totalled 25,000,000 bushels and "at the present rate of disappearance old crop stocks will be virtually exhausted at the end of the present crop year."

The bureau predicted that with Australia and Argentina eliminated as sources of wheat supply, the onus was on Canada and the United States and it was apparent stocks would be barely adequate to meet all demands.

The bureau said that Canada's decline in stocks from 792,000,000 bushels in 1944-45 to 580,000,000 a year had been partially offset by a record wheat harvest of 1,150,000,000 in the United States, plus an old wheat carryover of 281,000,000 bushels.

Lack of adequate rainfall in southern sections of Australia resulted in a downward revision of estimated wheat production to some 25,000,000 bushels as compared with the average crop of 178,000,000 bushels for the ten-year period ending in 1940. After making allowances for home consumption, there might be 25,000,000 to 35,000,000 bushels left for export and carryover. Of the exportable surplus, most of it was reserved for shipment to the United Kingdom and the far east.

The bureau noted that the office of foreign agricultural relations of the United States department of agriculture stated recently that continental Europe, exclusive of the U.S.S.R., would require approximately 18,000,000 tons of food imports during 1945-46.

Of this total, 15,000,000 to 16,000,000 tons should be composed of wheat or over 500,000,000 bushels.

North Africa, normally an exporter, will require over 65,000,000 bushels to meet minimum requirements. At this time, the requirements of the far east were not definitely known, although they would be much less than Europe.

"With Australia and Argentina eliminated, as important sources of wheat supply, the onus of supplying the major part of the import needs of the deficit areas seems to rest on the United States and Canada," the bureau said. "While sizable stocks are on hand in the two countries, it would appear that they are barely adequate to meet all demands."

## FITTING TRIBUTE

Three Reasons Why We Should Wear A Poppy This November 11th

This November 11th, for the first time in seven November, we can gather together and pay tribute to those who have paid for our peace with their lives, without the clouds of war hanging menacingly above us. Two world wars have been fought to preserve our rights as a free people—let us not forget the high price that has been paid for our freedom, by the young people of two generations. Therefore, the first reason for wearing a Poppy this November 11th is to show our appreciation of the sacrifices made by our war dead.

But, let us not forget those who have paid for our peace with a limb, their eyesight, or who are suffering from some other disability as a result of their service. The Poppies and Wreaths sold by the Canadian Legion are made by these disabled veterans in the Veterans' Shops at Christie Street hospital. Your purchase of a Poppy benefits them directly, and reveals to them your appreciation of their services and sacrifices. Thus, the second reason why you should wear a Poppy this November 11th, is that the third reason is the most evident; in every community there are boys and girls returning from the theatres of war to take their place in the civilian world. In honor of their brilliant service and the splendid job they have done, let us all wear a Poppy.

## VOYAGE POSTPONED

Ocean Trip In Barrel Called Off For Two Months

SYDNEY, N.S.—The start of the trans-Atlantic voyage in a barrel has been postponed for at least two months, because of the battering the strange craft received when a storm lashed Sydney harbor.

Mark Charlton, 29-year-old English-born boatmaker and originator of the 10-foot sail-equipped barrel, called the trip off for the time being after making a complete examination of the damage.

# ASSISTANCE TO FARMERS WHO SUFFERED THIS YEAR UNDER DROUTH CONDITIONS

OTTAWA.—The 1945 crop year in the prairie provinces has been declared an emergency crop year under provisions of the Prairie Farm Assistance Act, and farmers whose crops suffered from drought or other causes will receive assistance. Agriculture Minister J. G. Gardiner announced.

Farmers living in more than 3,000 townships in the eastern half of Alberta and the western half of Saskatchewan who suffered this year from the "severest drought conditions experienced in the prairie provinces since 1937," will be given help.

The minister said that without the benefit of this declaration, thousands of farmers in this area would otherwise be unable to carry on until the next crop was harvested.

Since the act was passed in 1939, the only crop year which was not declared an emergency year was that of 1942-43.

Mr. Gardiner explained that assistance payments are allotted to farmers on the basis of the average yield in the respective townships.

To the end of 1944 crop year, ex-

## RAIN SAVED CROPS

CANBERRA.—An increase of many million bushels in Australian wheat crop is expected after recent beneficial rains. In many parts of the dominion the rain came just in time to save the crops. The expected increase will mean production of 140,000,000 to 145,000,000 bushels. Forty per cent of this should be surplus and most of it probably will be exported as flour with Britain the chief buyer.

## A Dream Come True

When, on November 7, 1885, the last spike was driven linking the rails of the Canadian Pacific Railway, developments only dreamed of that day were to follow.

Soon ships flying the red and white Canadian Pacific house flag were plying the Pacific... then the Atlantic. There followed a chain of hotels... resorts and lodges... coastal and inland steamships... express and telegraph services—the whole forming an all-Canadian system stretching more than half way round the world.

In 1939, this vast system was dedicated to the winning of the war. Since then the Company's rail lines alone have handled more than 128 billion ton miles of freight—and 11 billion passenger miles. All ocean steamships have been on active service—many have gone down fighting.

Now the Canadian Pacific faces the future. Plans have been completed for the construction of new, improved locomotives and coaches... sleeping cars... parlour cars... diners; for the renovation of stations and hotels; and for the building of a new fleet of ocean vessels.

In a world at peace the Canadian Pacific will do its part in providing modern, efficient transportation by land and sea.
